Internship Profile

Job Title: Data & Analytics Interns

Job Description:

Job description (Responsibilities, Desired Skill Sets & Experience etc. for each role)

Our Mission and Purpose

- Mission: Leverage India's high-quality talent to provide exceptional analytics-driven management consulting services that empower clients globally to achieve their business goals and drive sustainable growth, by working alongside Oliver Wyman consulting teams.

- Purpose: Our purpose is to bring together a diverse team of highest-quality talent, equipped with innovative analytical tools and techniques to deliver insights that drive meaningful impact for our global client base. We strive to build long-lasting partnerships with clients based on trust, mutual respect, and a commitment to deliver results.

- We aim to build a dynamic and inclusive organization that attracts and retains the top analytics talent in India and provides opportunities for professional growth and development. Our goal is to provide a sustainable work environment while fostering a culture of innovation and continuous learning for our team members.

The Role and Responsibilities

We seek individuals with relevant academic experience in analytics, data science, or related fields. We will be

in quantitatively intense areas to join our team. You'll be working with varied and diverse teams to deliver unique and unprecedented solutions across all industries.

In the data scientist track, you will be primarily responsible for managing and delivering analytics projects and helping teams design analytics solutions and models that consistently drive scalable high-quality solutions.
