## Internship Profile

<b>Job Title:</b>	Product Intern
<b>Job Description:</b>	<p>Engineering internships for Summer of 2025 are now open across all product engineering teams at Adobe!</p> <p>Adobe's Digital Media Business Unit: Adobe's Digital Media Business Unit focuses on advancing state-of-the-art content and driving digital transformation of industries. It provides tools and services that enable individuals, small businesses, and enterprises to create, publish, promote, manage and monetize their content anywhere through the Adobe Creative Cloud and Document Cloud.</p> <p>Adobe's Digital Experience Business Unit: Adobe's Digital Experience Business Unit provides solutions that empower businesses to make, manage, measure and monetize online, offline and multichannel business initiatives.</p> <p>Adobe Document Services: Adobe Document Services is the epicenter of some of Adobe's greatest brands and is singularly focused on one goal: to continue revolutionizing the way businesses and people communicate with documents.</p> <p>Cloud Operations: Cloud Operations is responsible for ensuring Adobe's cloud platform, products and ecosystems are reliable, scalable and secure. From core infrastructure to enabling "As-a-Service" capabilities, our dedicated team of architects, software engineers, program managers and cloud administrators ensure that Adobe's customers are delighted by their experience with our products.</p>

#### Cloud Technology:

The Cloud Technology group builds platform and client services that are foundational building blocks for many other Adobe products and services. Areas of focus include: identity, security, cloud storage, e-commerce, workflow management, synchronization, customer-facing web apps, scalability, infrastructure management and search, just to name a few.

As a product intern, you will indulge in doing a feature/technology development from concept to implementation using state of art technology under the guidance of an Adobe mentor and other team members in a fun-filled environment.

#### What you will do

- Do research on a given feature or workflow or problem statement, discuss it with other group members, define it as a “goal” for the internship and get it validated from your mentor.
- Get a good understanding of the platform the problem needs to be solved for (e.g. iOS, Android, Service on AWS/Azure, etc.) to be able to provide a good implementation.
- Generate an implementation based on a robust design.
- Showcase the implementation to your mentor and the Group Head.
