## Internship Profile

**Job Title:** Systems Intern

**Job Description:** Quadeye is one of the largest India-based proprietary trading firms. Since inception, we have consistently grown at a handsome rate and have a distinct track record of success behind us. We run a stable business spread across asset classes and spanning the globe. Our greatest strength is our culture which takes a collaborative and non-hierarchical approach at work against an opposing prevalence in the industry. We strive as one team to stay ahead of the competition all the time.

We are looking to hire talented individuals who would like to join us as Summer Interns with our Systems team in Gurgaon. You will be working with other exceptional software and quantitative professionals to gain knowledge about quantitative trading while demonstrating your skills on a variety of projects including both technical as well as business side.

Your responsibilities will include:

- Requirement gathering to define scope of project, presenting to the team with effective communication tools and defining future expansion/optimization in the projects undertaken
- Write highly optimized, scalable & performance code following best practices and guidelines
- Understand and work on various projects in order to improve/enhance methodology, technology, adding new functionality and features, which can be implemented to present and future business requirements

Skills Required:

- Pursuing an engineering degree in Computer Science or equivalent from Premier Institutes
- Strong background in data structures, algorithms and

- object-oriented programming, preferably in C++ or C
- Good problem-solving skills and aptitude
- Ability to manage multiple tasks in a fast-paced environment
- Strong work ethics and communication skills
- Knowledge of Linux, R, Python/Perl is a plus
