Internship Profile

Job Title: Software Developer Intern

Job Description:

About the Job:
As a Software Developer intern at WinZO, your primary focus will be to learn the codebase, gather user data. You will also work on delivering critical code to help ensure applications are up-to-date and fully functional.

What you will do:
● Learning the codebase and improving your coding skills.
● Writing and implementing efficient code.
● Maintain and improve the performance of existing software.
● Collaborate with other developers and engineers to design, build, and maintain applications
● Recommend improvements to existing software programs as necessary

What you should have:
● Knowledge of basic coding languages such as C++, Java, Python or JavaScript.
● Good understanding of Databases, Operating Systems and Computer Networking.
● Good communication and presentation skills
● Good to have knowledge of Version Control Systems like GIT
● Knowledge of Object-Oriented Programming (OOPs) or Functional Programming
● Aggressive problem diagnosis and creative problem-solving skills
● Ability to learn new software and technologies quickly
● Able to adapt to fast-paced work environment
● Able to work independently and as part of a team
● Detail-oriented and goal-oriented.
