Internship Profile

Job Title: Intern Analyst

Job Description:

About the programme:
The Deutsche Bank Internship Programme is designed to help you develop your skills through formal
training and continuous support. You'll quickly gain the confidence to take on real projects by learning first-
hand how and what we deliver for clients worldwide. You'll feel supported by colleagues from across our
business and start to develop your professional network.

About the division:
Technology underpins Deutsche Bank's entire business and is changing and shaping the way we engage,
interact, and transact with our stakeholders, internally and externally. Our Technology, Data, and
Innovation (TDI) strategy is strengthening our engineering expertise, introducing an agile delivery model,
and is modernising the bank's IT infrastructure with long-term investments and taking advantage of cloud
computing. We are building a team of visionary technology talent that will ensure that we thrive in this
period of unprecedented change for the industry. That means hiring the right people and giving them the
training, freedom, and opportunity, they need to do pioneering work.

About the role:
Our technology teams deliver and manage engineering solutions to support the bank's global customers.
They develop and deliver solutions to help modernise technology solutions, to reduce complexity and risk,
and to drive business growth. Our Technology Intern
Programme offers you a wide variety of opportunities

within technology, and we're looking for bright minds like yours to help us make pioneering strides in today's fast moving digital world. Through job placements, training courses, seminars, and a variety of networking events you will gain a wide range of practical experience and interpersonal skills with a bank that's truly driving change in the financial and digital world.

What we look for:
We recruit highly intelligent students who are ambitious and adaptable. We have a comprehensive training programmes that will give you all the technical knowledge you'll need to build a career with us. Above all, we're looking for entrepreneurial people who thrive best in a diverse culture where innovation and agile thinking abound.
• BE / B Tech (Computer Science / Information Technology)
