## Internship Profile

**Job Title:** Software Development Engineer

**Job Description:**

Software Development Engineer
【Internship Project】
IBY solution can analyze online communication. That can apply to main industrial domains and business functions to solve issues. In this internship, we expect you to develop new features and do some technical PoCs. For example, "video conference function" like Zoom, Meet and "advanced analysis" like tableau and "information sharing platform" like github for software.

Each Intern picks up one theme and makes their own task plan and execute plan. Throughout the intern period, we will have weekly meetings to share updates and discuss issues and communicate every day on Slack.

This internship may separate two parts. First part is an individual project and the second part is a team project. In the team project, we will expect you deveple prototypes that are designed by UX/UI interns as a team.
